## EUROMED POLICE

Euromed Police IV began in February 2016 for a duration of four years. Funded by €4.8 million from the European Neighbourhood Instrument (ENI) the aim of the project is to encourage police cooperation amongst the members countries of the ENI South and between these counties and member states of the European Union. The project seeks to improve citizen security in the areas of the respect of international principles and standards of good governance, the rule of law and respect for human rights through long-lasting processes and mechanisms.

### • Euromed Strategy for Citizen Security

A **cooperation strategy** to improved citizen security in priority areas in line with the EU's policy cycle to fight against organised crime.

### • Euromed Threat Forum

This Forum facilitates the exchange and analysis of information on crime and is hosted by EUROPOL.

### • Euromed knowledge base

The **Euromed knowledge base**, hosted by CEPOL, for the continuous exchange of experience and the development of training material will be managed by the Euromed Capacity Building Network.

## Chronology

The project began in February 2016 for a duration of four years.

### February 2016

Start of the project

Launch of project

### December 2016

Implementation of the analysts' network

First meeting of the analysts' network in Madrid. The network's mandate is to identify threats to citizens' security in the partner countries and in the project's priority areas. On the back of this capacity building actions will then be developed.

### January 2017

Implementation of the capacity building network

First meeting of the capacity building network hosted by the National Police College at Saint-Cyr-au-Mont-d'Or in Lyon.

### February 2017

## Approval of the priority areas

First High Level Meeting in Malta, approval of the “Euromed Cooperation Priorities to improve citizens’ security”: counter-terrorism, illegal immigration facilitated by criminal networks and cybercrime. These form the basis for the actions to be implemented throughout the project including capacity building.

### September 2017

Approval of the Euromed Strategy for Citizen Security

During the second High Level Meeting in The Hague the “Euromed Cooperation Strategy” to increase citizen security in the priority areas was approved. This strategy is aligned with the European Union policy cycle to fight against organised crime.

### December 2017

Launch of capacity-building actions

First capacity-building action in Rome on the topic of the fight against human trafficking.

### December 2019

End of project

End of project activities
